## **ADMINISTRATIVE ERROR - LODGEMENT OF ANNOUNCEMENT**

An announcement titled “EQR Progresses Regional Tungsten Hub Strategy” released today was inadvertently lodged by EQ Resources under the incorrect ASX code “IVX” due to an administrative error. The administrative error was due to Company’s Secretary’s office having joint representation. This resulted in a delay of the release of the announcement for EQR of approximately 20 minutes.

The announcement has now been removed as an announcement under ticker code IVX.

**Released on authority of the Company Secretary:  
Melanie Leydin**
