

CORPORATE GOVERNANCE STATEMENT

The Board of Carbine Tungsten Limited (“the Company” or “Carbine”) is responsible for ensuring good corporate governance and strives for high standards in this regard.

The Board monitors the business affairs of Carbine on behalf of the shareholders by whom they are elected and to whom they are accountable. The Board draws on relevant best practice principles, with particular emphasis placed on the 3rd Edition of the Corporate Governance Principles and Recommendations issued by the ASX Corporate Governance Council on 27 March 2014.

At a number of its meetings the Board examines and compares Carbine’s corporate governance practices to the best practice principles recommended by the ASX Corporate Governance Council. While Carbine is attempting to adhere to the principles proposed by the ASX, it is mindful that there may be some instances where compliance is not practical for a company of Carbine’s size.

The March 2014 ASX Corporate Governance Council publication “Corporate Governance Principles and Recommendations” 3rd Edition requires all listed companies to disclose the extent to which they have followed the recommendations, to identify any recommendations that have not been followed and disclose the reasons for not doing so. The Company’s Board of Directors have reviewed the recommendations and in many cases the Company is already achieving the required standards however in other cases the Company will have to consider new arrangements to enable compliance. In a limited number of instances, the Company may determine not to meet the standard set out in the recommendations, largely due to the recommendation being considered by the Board to be unduly onerous for a company of its size.

The Carbine Corporate Governance Committee, consisting of Roland Nice (Committee Chairman) and Andrew James (Jim) Morgan (Committee Member) meet as and when required, including prior to the finalisation of the Annual Report.

A summary of the Company’s Corporate Governance Plan has been prepared and included in the Corporate Governance section of Carbine’s website at www.carbinetungsten.com.au.

The following paragraphs set out the Company’s position relative to each of the eight principles contained in the 3rd Edition of the ASX’s Corporate Governance Principles and Recommendations.

Carbine's Board Skills Matrix sets out the mix of skills, experience and expertise that the Board currently has and is looking to achieve for Board membership. As well as general skills expected for Board membership (such as executive leadership and management experience, financial acumen, corporate governance and risk management experience), the matrix reflects various areas relevant to the Company's strategy. In particular, these areas are resource industry experience, European, Chinese and Japanese negotiation experience, business development skills, debt and capital market experience and production experience. Each of these areas is currently represented by the Board collectively. The Board benefits from a combination of the Directors' individual skills, experience and expertise in particular areas, as well as the varying perspectives and insights that arise from the interaction of Directors with diverse backgrounds.

The following table sets out the key skills and experience of the Directors and the extent to which they are represented on the Board and its committees:

The Company, its Directors and Senior Executives are very aware of the ASX’s continuous disclosure requirements and ensures that all price sensitive information is identified, reviewed and disclosed to the ASX in a timely manner and that all information provided to the ASX is immediately available to shareholders and the market on the Company’s website.

The Company values economic, environmental and social sustainability within the areas in which it operates. In order to mitigate any material exposure to economic, environmental and social sustainability risks, the Board, assisted by the Audit and Risk Committee, has oversight of risk management and meet regularly to review and assess risks.

During the 2017 financial year, the Company identified and addressed the following as material risks relating to economic, environmental and social sustainability:

- The Company updated its corporate governance practices and policies which apply to the Board and the Company's business practices. In addition to corporate governance policies, the Company has in place specific policies and procedures to prevent bribery and corruption and manage the giving and receiving of gifts and entertainment.
- The Company is exposed to commodity price risk. Price volatility is affected by many factors beyond the control of the Company. This risk arises from its activities directed at exploration and mining development of mineral commodities. If commodity prices fall, the market for companies exploring and/or mining these commodities is affected. The Company does not currently hedge its exposures. To mitigate, the Company actively monitors price movements and such exposure to ensure that it is managed within risk tolerance and finance facilities.

CORPORATE GOVERNANCE STATEMENT

- The Company is exposed to currency conversion fluctuations in United States dollars and Australian dollars which are affected by many factors beyond the Company's control. Foreign exchange risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not the entity's functional currency. The Company's foreign currency transactions are not significant at this stage, but will be reviewed as mining operations increase. There is no hedging currently in place for foreign exchange risk. To mitigate, the Company actively monitors currency exchange fluctuations and such exposure to ensure that it is managed within risk tolerance and finance facilities.
- The Company is committed to maintaining a high standard of health, safety, environmental management and reporting as well as conducting its business in a manner that prevents injury or illness to employees, contractors and the community. The Company has policies, processes and procedures in place to mitigate such risk. Regular training sessions and emergency exercises are conducted to ensure staff are prepared in the event of an incident.
- The Company's project is subject to the risks associated with economic, social or political change. The Company monitors these ongoing risks along with government and community relations. In addition, the Company endeavours to participate with a view to positively affecting the people, communities and environments in which it operates.

An evaluation of the performance of Non-executive Directors, Executive Directors, Senior Executives and employees takes place at least once during each reporting period.

The Directors work closely with management and have full access to all the Company's files and records. Directors believe that the size of the Company makes individual salary and consultant negotiations more appropriate than formal remuneration policies.

Membership of the Committee

It is the Board's intention that the Committee comprise at least two members and that one of the Committee members be an Independent Non-executive Director; and that

- A quorum for a meeting of the Committee is two members;

Administrative Matters

It is intended that the Committee will normally meet annually or as otherwise required. The Committee may, upon notifying the Board or the Chairman of the Board:

- Seek advice of the Company's auditors and solicitors; and
- Engage or procure the engagement of independent advisers, as determined by the Committee.

CORPORATE GOVERNANCE STATEMENT

The Committee considers independent advice, where circumstances require, on the appropriateness of remuneration to ensure the Company attracts, motivates and retains high quality people. In accordance with the Corporations Act, the Company discloses the fees or salaries paid to all Directors, plus its highest paid officers.

All Minutes of the Committee will be entered into a Minute Book maintained for that purpose and will be open at all times for inspection by any Director.

Reporting

It is intended that a report on the actions of the Committee and/or a copy of the Minutes of the Committee Meetings will be included in the papers for the Board Meeting next following a meeting of the Committee.

The Committee Chair will, if requested, provide a brief oral report to the Board as to any material matters arising out of the Committee meeting. All Directors may, within a Board Meeting, request information of members of the Committee.

The ASX Listing Rules and the Company's Constitution require that the maximum aggregate amount of remuneration to be allocated among the Non-executive Directors be approved by the shareholders at the General Meeting. In proposing the maximum amount for consideration by shareholders, and in determining allocation, the Remuneration Committee takes account of the time demands made on Directors and such factors as fees paid to Non-executive Directors in comparable Australian companies.

Details of the remuneration policies and framework of the Company and the remuneration paid to Directors (Executive and Non-executive) and Senior Executives are set out in the Directors' Report contained in the Company's 2017 Annual Report. Shareholders will be invited to consider and approve the Remuneration Report at the 2017 AGM.

Responsibilities and Functions

Remuneration

The role of the Remuneration Committee is to advise the Board on matters relating to the remuneration of Directors, Senior Executives and employees of the Company.

Managing Director Evaluation

The Managing Director is the key employee of the Company in general and of the Board in particular. As such, a special relationship exists between the Managing Director and the Board. A detailed Managing Director evaluation is undertaken annually by the Remuneration Committee, with the process co-ordinated by the Chairman.

Managing Director evaluations will utilise both quantitative and qualitative measures. Evaluation will be judged against the approved Strategic Plan. The Chairman of the Remuneration Committee will provide a brief report to the full Board after discussion with the Managing Director. However, the performance of the Managing Director is a matter for full Board deliberation.

Recommendation 8.3 - Policy on Equity Based Remuneration Scheme

Securities Trading and Trading Windows

The Company has an equity-based remuneration scheme which was approved by shareholders at the AGM held on 24 November 2015.

The Company also has a "Dealing in Securities Policy" which applies to all Directors, Senior Executives, employees and key consultants of the Company. This Policy provides a brief summary of the law on insider trading and other relevant laws and establishes a best practice procedure relating to dealing in securities that provides protection to both Carbine and its personnel against the misuse of unpublished information which could materially affect the value of its securities.

Directors, Senior Executives, employees and key consultants must consult with the Chairman of the Board or the Managing Director before dealing in the Company's shares. Purchases or sales in the Company's shares by Directors, Senior Executives, employees and key consultants may not be carried out other than in the "window", being the period commencing two (2) weeks prior to, and twenty-four (24) hours after the release of the Company's Annual Financial Report; two (2) weeks prior to, and twenty-four (24) hours after the release of the Half-Year Financial Report of the Company; and one (1) week prior to, and twenty-four (24) hours after the release of the Company's quarterly reports, or two (2) days subsequent to a major announcement leading, in the opinion of the Board, to an informed market. However, Directors, employees and key consultants are prohibited from buying or selling the Company's shares at any time if they are aware of price-sensitive information that has not been made public.

In accordance with the Corporations Act, Company personnel are prohibited from hedging Company securities prior to the vesting of those securities or while those securities are subject to a holding lock or restriction on dealing under the terms of an employee incentive plan operated by the Company. This prohibition is contained in the "Trading Policy", a copy of which is available on the Company's website.
